

CONSOLIDATED APPENDICES

For ease of use, these appendices have been consolidated and reformatted by topic to incorporate any agreement between the parties (National and/or local). Any appendix or section from the 1979 Agreement that does not appear in this update, has been retained but not reproduced. Should the paragraph designation used in any agreement included in these consolidated appendices be different than that used in the original document, it is understood it does not change the intent, interpretation, application or meaning of the language contained in the original signed agreement.
